About Me

What I Do at MSK

- Research Director, Gynecologic Medical Oncology Service
- Clinical Director, Solid Tumor, Cellular Therapy Service
- Associate Attending Physician

Get To Know Me

I am a medical oncologist with a primary focus on the medical treatment of patients with gynecologic cancers. I work very closely with a team of surgeons, oncologists, and radiation therapists to determine and provide the best treatment for each patient with these diseases.

My research initiatives include improving the treatment options for women with recurrent ovarian cancer and uterine sarcomas.

My Role at MSK

A gynecologic (GY-neh-kuh-LAH-jik) oncologist is a cancer doctor with special training in the gynecologic system. This includes cervical, fallopian tube, ovarian, uterine, vaginal, and vulvar cancers.

A cellular therapy specialist is a doctor with special training in using cell therapies to treat health conditions such as cancer. Therapies can include chimeric antigen receptor (CAR) T cell therapy.
