## Get to Know Me

I am a medical oncologist with a clinical practice that is devoted solely to the care of patients with breast cancer.

My research activities are focused on the clinical development of new therapies for the treatment of breast cancer, with a particular emphasis on evaluating targeted biological anticancer agents. Currently, I am involved in phase I and phase II clinical trials to evaluate novel anti-HER2 therapies. Additional information about these clinical trials is available on Memorial Sloan Kettering's website.

## What I Do at MSK

I'm a breast medical oncologist, which is a cancer doctor who specializes in breast cancer.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.
