## Get to Know Me

I am a board-certified neuroradiologist. My primary interest is [pediatric brain tumor](#) imaging. My responsibilities involve reading MRI and CT scans of both adults and children to diagnose cancer in the brain and spine. I also read these images to see if tumor is responding to therapy, and to identify any potential complications of cancer or its treatment.

I also perform diagnostic procedures such as lumbar punctures. They can help surgeons and medical oncologists manage the care of people with cancer that has spread or those who have [primary brain tumors](#) , [leukemia](#) , and [lymphoma](#) .

## What I Do at MSK

I'm a neuroradiologist (NOOR-oh-RAY-dee-AH-loh-jist). This is a doctor with special training in images of the nervous system, including the brain, head, neck, and spine.

- Head, Pediatric Neuroradiology

## Areas of Expertise

### Conditions I Treat

- Pediatric brain tumors
- Brain tumors
- Retinoblastoma

### My Specialties

- CT scan
- MRI
- Lumbar puncture (spinal tap)
- Antibody therapy
- Theranostics

## Education & Honors

### Education

- MD, Emory University School of Medicine

### Residencies

- University of Virginia Health System
- Maimonides Medical Center

### Fellowships

- NewYork-Presbyterian Hospital
- Memorial Sloan Kettering Cancer Center

## Board Certifications

- Diagnostic Radiology
- Certificate of Added Qualification in Neuroradiology

## Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](#) .

## Make an Appointment

### New Patients

Scheduling an appointment is easy. Click or call [800-525-2225](#) — we're available 24 hours a day, 7 days a week

## Colleagues

Doctors at Memorial Sloan Kettering work as teams, with specialists from all different areas. This allows us to consider all your needs together, and to give you the best possible care.

[See all Neuroradiology Service doctors](#) ([https://www.mskcc.org/doctor#f:Departments=\[Radiology,Neuroradiology Service\]](https://www.mskcc.org/doctor#f:Departments=[Radiology,Neuroradiology Service]))

# Clinical Trials

- Clinical Trials Co-Investigated by Dr. Haque
- [A Registry for Patients with Neurocutaneous Melanocytosis](#)

## Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

# Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities

outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Sofia S. Haque discloses the following relationships and financial interests:

*No disclosures meeting criteria for time period*

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#). For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org).
