About Me

What I Do at MSK

- Clinical Director, Clinical Genetics Service

Get To Know Me

I am a board-certified medical oncologist who specializes in treating patients with gastrointestinal cancers. I have a special interest in caring for patients with an inherited risk for colorectal cancer.

I work very closely with a team of surgeons, oncologists, gastroenterologists, and radiation therapists to provide the best treatment and care for each patient.

In addition, I have a separate genetics clinic where I provide clinical counseling and genetic testing for people who may have an inherited predisposition to gastrointestinal or other cancers. Based on genetic test results and family history, I help men and women with cancer incorporate genetic information into their treatment plan and the surveillance of cancer after treatment.

My Role at MSK

A gastrointestinal (GAS-troh-in-TES-tih-nul) oncologist is a cancer doctor with special training in the gastrointestinal (GI) system. This includes anal, colorectal, esophageal, gastric (stomach), liver, and pancreatic cancers, as well as GI stromal tumors and neuroendocrine tumors.

A clinical geneticist is a scientist with special training in diagnosing and treating genetic conditions. They can help explain your risk of getting a genetic condition that is passed on from parents to children.

Areas of Expertise

My Specialties

Colorectal Cancer
Gastrointestinal Oncology
Genetic Predisposition to Cancer
Cancer Risk Counseling

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Zsafia K. Stadler discloses the following relationships and financial interests:

UptoDate
Professional Services and Activities (Uncompensated)

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#). For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at ecoi@mskcc.org.
