[History](#)

[Equality, diversity & inclusion](#)

[Annual report](#)

[Give to MSK](#)

In 2013 I joined the Adult Bone Marrow Transplant Service, where I am responsible for the day-to-day medical management of people who are undergoing bone marrow transplantation. I work under the guidance of the physicians on this service.

Before joining this service I worked as a physician assistant in caring for adults with leukemia, and in clinical trials. In addition to oncology, I am interested in health policy and infectious disease medicine. I have completed a Master of Public Health degree with a focus on community health, and I have a strong interest in volunteerism within Memorial Sloan Kettering and the community that I live in.

Elaina Preston

## Clinical Expertise
