[Give to MSK](#)

I became a nurse practitioner on Memorial Sloan Kettering's Adult Bone Marrow Transplant Service upon completing my master's degree in 2010. I work as part of a multidisciplinary team that treats people with hematologic malignancies who are undergoing bone marrow or stem cell transplantation.

I started at Memorial Sloan Kettering as a clinical nurse in 2005, caring for inpatients with leukemia and lymphoma and taking part in various nursing and hospital committees.

Clinical Expertise

Bone Marrow Transplantation (Adult)
