[Give to MSK](#)

As a nurse practitioner with Memorial Sloan Kettering’s inpatient Bone Marrow Transplant Service, I am part of a collaborative team that includes physicians, clinical pharmacists, nurses, case managers, social workers, physical therapists, and dietitians. We provide comprehensive care to cancer patients undergoing bone marrow transplantation.

I am very passionate about oncology nursing and have worked with cancer patients as a registered nurse and nurse practitioner since 2001. My clinical experience is largely in the areas of hematology and bone marrow transplantation.
