

PATIENT & CAREGIVER EDUCATION

Cancer-Related Lymphedema Support Group

Lymphedema is a chronic condition that some patients face after treatment for cancer. Join us for this support and discussion group aimed at connecting with other patients, sharing techniques and tips for managing lymphedema and coping with this chronic condition.

This program is for people who have lymphedema as a result of cancer treatment.

First Thursday of each month

4:00 PM to 5:30 PM
