Caregiver Support Services

This information explains the support services available to caregivers at Memorial Sloan Kettering (MSK).

At MSK, we recognize caregivers as an important part of the cancer care team. As the family member, friend, or caregiver of someone with cancer, you may find yourself taking on new responsibilities while coping with your own emotions and responsibilities. It’s normal to sometimes feel overwhelmed by the stress of caregiving, but you’re not alone. Have a look at the various services MSK has to support you as you take on this role while also caring for yourself. For more information, visit www.mskcc.org/caregivers.

Caregivers Clinic in the Counseling Center
www.mskcc.org/locations/directory/msk-counseling

Our Caregivers Clinic provides support specifically for caregivers who are having difficulty coping with the demands of being a caregiver. The purpose of this clinic is to help you maximize your ability to provide care to your loved one with cancer while attending to your own self-care, needs, and other important responsibilities. For more information, call 646-888-0200.

Social Work
www.mskcc.org/experience/patient-support/counseling/social-work-support

Social workers can help you manage different issues across the cancer care continuum. They provide individual counseling and support groups. Our social workers can also help refer you to community agencies and programs. For more information, call 212-639-7020 or email forcaregivers@mskcc.org.

Patient and Caregiver Support Program
