Head and Neck In-Treatment Support Group

Living with salivary gland cancer or adenoid cystic carcinoma can bring unique challenges. Join others with shared experiences for supportive discussions focused on coping, emotional well-being, and connection with peers.

This is an 8-session virtual support group led by an oncology social worker and APP for MSK patients of all ages diagnosed with salivary gland cancer or adenoid cystic carcinoma, including those undergoing treatment or managing recurrent or advanced disease.

The group will meet virtually for 8 weeks on Thursdays from 5:00 p.m. to 6:00 p.m., beginning September 24. A consultation is required prior to joining.

Audience:

This support group is open to MSK patients of all ages diagnosed with salivary gland cancer or adenoid cystic carcinoma.
