How to Disconnect Your CADD Prizm Pump

Please visit www.mskcc.org/pe/disconnect_cadd to watch this video.

This video demonstrates how to disconnect your CADD Prizm® Pump after it has finished delivering your chemotherapy dose. The video describes how to stop the pump, remove the battery and tubing, clean the end of your pick line, and store the device before you bring it back to the doctor's office. For more information about how to use and disconnect your chemotherapy pump, please refer to the printed materials given to you by your nurse.

If you have any questions, contact a member of your healthcare team directly. If you're a patient at MSK and you need to reach a provider after 5:00 PM, during the weekend, or on a holiday, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
