

PATIENT & CAREGIVER EDUCATION

How to sign your consent form before your visit starts

Before your telemedicine visit, you must sign a consent form. It explains what you can expect from your telemedicine visit. You must sign this form on your own. Your caregiver will not be able to sign the form for you.

If you're joining your telemedicine visit from MyMSK:

If you have not signed a telehealth consent, you will see a message: "Please sign your Telehealth consent form."

- Select "Sign Now (See Figure 1)."

Figure 1. The screen to sign your consent form

If you're joining your telemedicine visit from the email or text we sent to you:

- If you use your MyMSK username and password to sign in, you will see "Please sign your Telehealth consent form."
- If you use your date of birth to sign in, you will not see that message.

If you have trouble signing the consent, please contact

your healthcare provider's office.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
