Brand Names: Canada

Locacorten Vioform

What is this drug used for?

Cream:

- It is used to treat skin infections.

Ear drops:

- It is used to treat ear infections.

What do I need to tell my doctor BEFORE I take this drug?

For all patients taking this drug:

- If you are allergic to this drug; any part of this drug; or any other drugs, foods, or substances. Tell your doctor about the allergy and what signs you had.
- If you have any of these health problems: A viral skin infection like cold sores, chickenpox, or shingles; acne; rosacea; skin problems caused by TB (tuberculosis) or syphilis; skin problems after getting a vaccine; or swelling around the mouth.
- If you are using this drug in the ear and you have a ruptured ear drum. Do not use in the ear if you have a ruptured ear drum.

Children:

- If the patient is a child younger than 2 years of age. Do not give this drug to a child younger than 2 years of age.

This is not a list of all drugs or health problems that interact with this drug.

Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, vitamins) and health problems. You must check to make sure that it is safe for you to take this drug with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

What are some things I need to know or do while I take this drug?

All products:

- Tell all of your health care providers that you take this drug. This includes your doctors, nurses, pharmacists, and dentists.
- Do not put on open sores or broken skin.
- Do not use longer than you have been told by the doctor.
- This drug may change in color. This is normal.
- This drug may stain fingernails, hair, and skin.
- Protect clothing and fabrics from staining.
- If this drug gets in the eyes, rinse with cool water.
- This drug may affect certain lab tests. Be sure your doctor and lab workers know you use this drug.
- Tell your doctor if you are pregnant, plan on getting pregnant, or are breast-feeding. You will need to talk about the benefits and risks to you and the baby.

Cream:

- Do not use coverings (bandages, dressings) unless told to do so by the doctor.
- Use care when using on a large part of the skin. Talk with the doctor.
- Talk with your doctor before you use other drugs or products on your skin. This includes soaps.
- If the patient is a child, use this drug with care. The risk of some side effects may be higher in children.
- This drug may affect growth in children and teens in some cases. They may need regular growth checks. Talk with the doctor.

What are some side effects that I need to call my doctor about right away?

WARNING/CAUTION: Even though it may be rare, some people may have very bad and sometimes deadly side effects when taking a drug. Tell your doctor or get medical help right away if you have any of the following signs or symptoms that may be related to a very bad side effect:

All products:

- Signs of an allergic reaction, like rash; hives; itching; red, swollen, blistered, or peeling skin with or without fever; wheezing; tightness in the chest or throat; trouble breathing, swallowing, or talking; unusual hoarseness; or swelling of the mouth, face, lips, tongue, or throat.
- Signs of a weak adrenal gland like a severe upset stomach or throwing up, severe dizziness or passing out, muscle weakness, feeling very tired, mood changes, decreased appetite, or weight loss.
- Redness.
- Burning.

Cream:

- Skin changes (pimples, stretch marks, slow healing, hair growth).
- Change in skin color.

What are some other side effects of this drug?

All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not go away:

- Irritation where this drug was used.

These are not all of the side effects that may occur. If you have questions about side effects, call your doctor. Call your doctor for medical advice about side effects.

You may report side effects to your national health agency.

You may report side effects to the FDA at 1-800-332-1088. You may also report side effects at https://www.fda.gov/medwatch.

How is this drug best taken?

Use this drug as ordered by your doctor. Read all information given to you. Follow all instructions closely.

Cream:

- Do not take this drug by mouth. Use on your skin only. Keep out of your mouth, nose, and eyes (may burn).
- Wash your hands before and after use. If your hand is the treated area, do not wash your hand after use.
- Clean affected part before use. Make sure to dry well.
- Put a thin layer on the affected skin and rub in gently.

Ear drops:

- For the ear only.
- Do not use in the eye.
- Wash your hands before and after use.
- You may want to gently clean the ear with a warm, wet cloth. Dry the ear with a towel.
- Warm solution by holding the container in your hands for 1 to 2 minutes before putting drops in ear to lower the chance of dizziness.
- Do not heat or microwave.
- Lie on your side with problem ear up.
- For children 3 years of age and older and adults, pull the outer ear outward and upward.
- For children younger than 3 years of age, pull the outer ear outward and downward.
- Put drops in ear without touching dropper to ear. Stay on side for 2 minutes or put cotton plug in ear.

What do I do if I miss a dose?

- Use a missed dose as soon as you think about it.
- If it is close to the time for your next dose, skip the missed dose and go back to your normal time.
- Do not use 2 doses at the same time or extra doses.

How do I store and/or throw out this drug?

All products:

- Store at room temperature. Do not freeze.
- Protect from heat.
- Keep all drugs in a safe place. Keep all drugs out of the reach of children and

pets.

- Throw away unused or expired drugs. Do not flush down a toilet or pour down a drain unless you are told to do so. Check with your pharmacist if you have questions about the best way to throw out drugs. There may be drug take-back programs in your area.

Ear drops:

- Protect from light.

General drug facts

- If your symptoms or health problems do not get better or if they become worse, call your doctor.
- Do not share your drugs with others and do not take anyone else's drugs.
- Some drugs may have another patient information leaflet. If you have any questions about this drug, please talk with your doctor, nurse, pharmacist, or other health care provider.
- Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about this drug, please talk with your doctor, nurse, pharmacist, or other health care provider.
- If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.
