Memorial Sloan Kettering Cancer Center

PATIENT & CAREGIVER EDUCATION

Men's Post-Treatment Support Group (RLAC)

This online support group is for men who have completed treatment. In this support group, common areas of concern will be discussed, including stamina, body image changes, sexuality, employment, communication with friends and family, anxiety about health, and fear of recurrence. This group is led by oncology social workers.

Audience:

Registration is open to MSK patients only.
