Palliative Care: Improving Quality of Life for Anyone With Cancer

This information is from the American Society of Clinical Oncology (ASCO). It is designed to help people with cancer, their families, and their caregivers. This information explains what palliative care (or Supportive care) is and how to find it.

Visit www.msk.org/pe/supportive-care to see this resource.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
