

PATIENT & CAREGIVER EDUCATION

What You Need to Know About Breast Cancer and Fertility

Join us for an important talk about fertility after a breast cancer diagnosis. During this event, MSK experts will discuss:

- Safety data on pregnancy after breast cancer, including information about specific types of breast cancer, such as receptor-positive and BRCA-positive
- Optimal timing for pregnancy after diagnosis
- Pregnancy outcomes
- Fertility options before and after cancer treatment

This event is for people with breast cancer, breast cancer survivors, and partners who are thinking about getting pregnant or have questions about pregnancy after breast cancer.
