PATIENT & CAREGIVER EDUCATION

How To Care for Your Prosthetic Eye

This video shows how to care for your prosthetic eye. This includes how to take it out, clean it, and put it back in your eye socket. You can do these steps yourself or your caregiver can do them for you.

Please visit www.mskcc.org/pe/prosthetic-eye-video to watch this video.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
