PATIENT & CAREGIVER EDUCATION

Understanding Genes and Hereditary Cancer Risk

This video explains genes, hereditary cancer, and how genetic testing can help you and your healthcare providers plan your care.

Please visit www.mskcc.org/pe/genes-hereditary-cancer to watch this video.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
