Memorial Sloan Kettering Cancer Center

PATIENT & CAREGIVER EDUCATION

What's New in Active Surveillance for Prostate Cancer

In this webinar, Dr. Behfar Ehdaie will explain how active surveillance is improving, and why more doctors are recommending it for their patients. He also will talk about new treatment options developed in recent years, including focal therapy. He will answer common questions people have about changing their prostate cancer treatment.

Dr. Ehdaie is a urologic surgeon at Memorial Sloan Kettering Cancer Center (MSK). He is also the clinical advisor to the Prostate Active Surveillance Program.

This webinar is for anyone who is curious about new developments in active surveillance and other types of prostate cancer treatment.

Please visit www.mskcc.org/pe/prostate-active-surveillance-webinar to watch this video.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.

For more resources, visit www.mskcc.org/pe to search our virtual library.
