— a review of your recent medical history and a physical examination

screening referrals for other cancers

healthy lifestyle recommendations, including nutrition, exercise, and help quitting smoking

a treatment summary and follow-up care plan

After each visit, the NP will give a treatment summary and [survivorship plan](#) of care to you and your healthcare providers. Your treatment team can incorporate this information into your overall medical plan.

Your full treatment history with MSK is always available to your primary care doctors.
