Even after you’ve finished your cancer treatments, you may still need our help. We’re committed to supporting you in every way we can — physically, emotionally, spiritually, and otherwise — for as long as you need us.

We’ve built a program designed for cancer survivors and their families. Our [Adult Survivorship Program](#) has many services for you and your loved ones, including support groups, follow-up programs, educational resources, and more.

Plus, our [Resources for Life After Cancer](#) program offers individual and family counseling, lectures and support groups, and practical guidance on employment and insurance issues, among other services.

See what we offer below, or visit the [Adult Survivorship Program](#) to learn more.

For information about your medical follow-up care specifically, explore our Thyroid Cancer Survivorship [Follow-up Care](#) program.

Memorial Sloan Kettering has dedicated rehabilitation experts who can help you recover after treatment for kidney cancer. We'll help you learn therapeutic exercises and training programs to get back the strength, flexibility, and endurance that treatment can diminish. These exercises can help improve your overall quality of life and decrease pain throughout recovery.
