Be sure to let members of your cancer care team know about any pain, changes, or problems that you experience. Also mention symptoms — such as skin itching, nausea, fever, and jaundice — which may be caused by blockage of the bile ducts. If this happens and the tumor is too widespread to be removed, surgery may help prevent the blockages and reduce your symptoms.

### Request an Appointment

Call [800-525-2225](tel:800-525-2225)

Available Monday through Friday, 8 a.m. to 6 p.m. (Eastern time)
