You will be advised of the location of your appointment at the time of your call.

## See a Memorial Sloan Kettering Doctor Closer to Home

Patients living in the suburbs of New York City may find it more convenient to see a Memorial Sloan

Kettering physician at one of [our suburban outpatient cancer centers](#) . At these centers, our expert clinicians see patients in local settings, providing the highest standards of comprehensive cancer care, including the most advanced chemotherapy and radiation treatments. This means that gynecologic cancer patients need to come to the Manhattan campus only for certain procedures, such as surgery. When you call us for an appointment, please let us know if you would prefer to be seen at a Memorial Sloan Kettering regional site.
