[FOR THE MEDIA](#)

To cope with cancer you need more than medical treatment. That's why we offer services like counseling for you and your family, therapeutic programs in art and music, and help for issues that come up while you're in our care and even long after active treatment is over. To us, you're more than a diagnosis — you're a person with a life beyond cancer, and we want to help you get back to it.

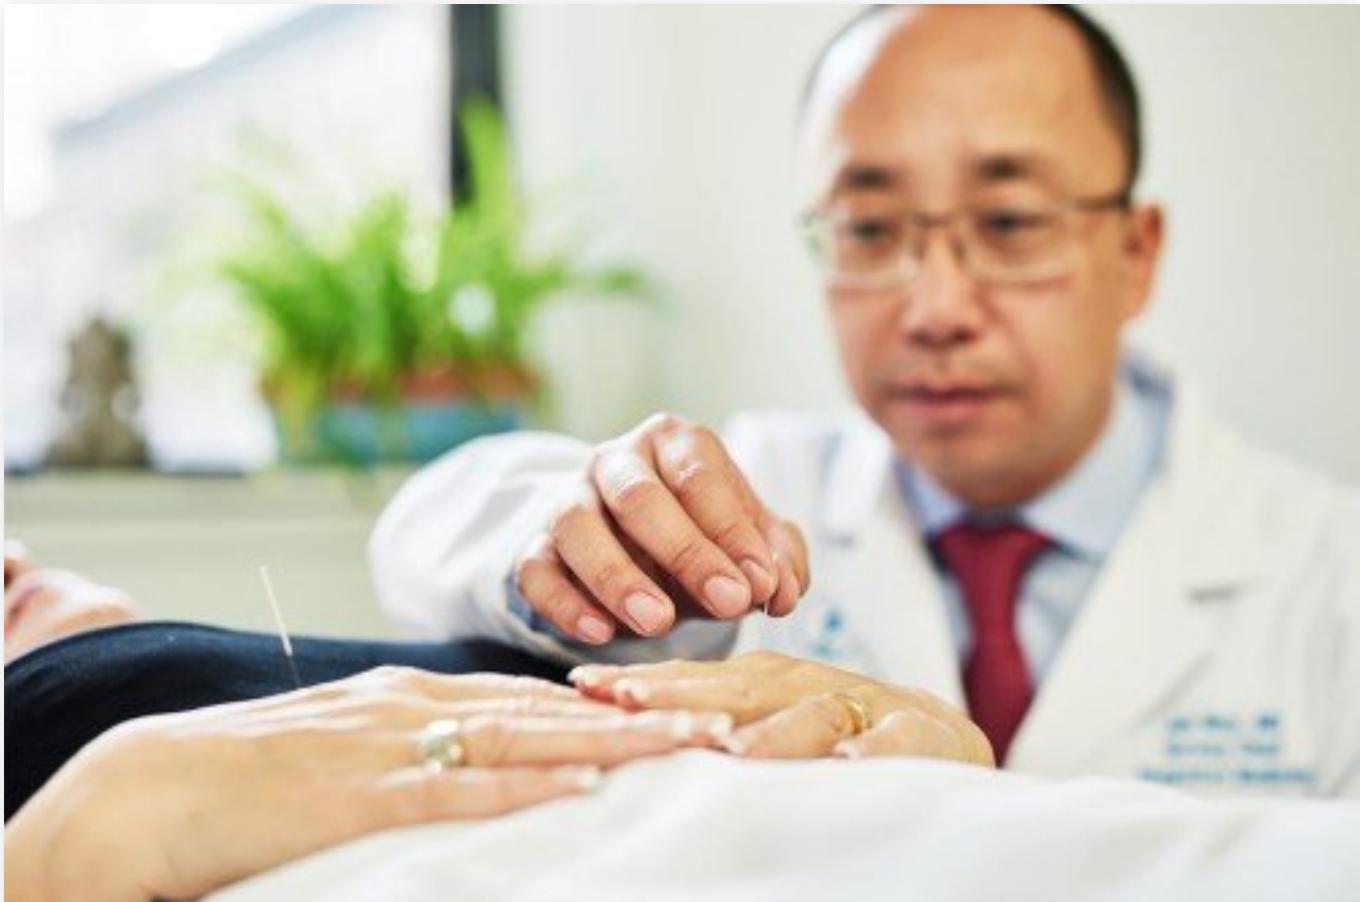

It's okay to need extra help during your cancer treatment and beyond. [Findhelp](#) is a resource that shows you local support programs in your community. You can look for services, such as rides to appointments, help paying bills, healthy food banks, and more. Search for resources using your zip code.
