ABOUT US

[Our mission, vision & core values](#)

[Leadership](#)

[History](#)

[Equality, diversity & inclusion](#)

[Annual report](#)

[Give to MSK](#)

THIS IS a one-year Accreditation Council for Graduate Medical Education (ACGME)-accredited program in tumor pathology during which fellows are actively engaged in the examination of anatomic pathology material submitted to the Department of Pathology under the supervision of the attending staff.

The material comprises over 60,000 surgical specimens (including 20,000 departmental consults) and 45 autopsies per year.

The educational program's philosophy involves direct handling of large volumes of interesting and complicated cases by the fellows. Rotations are organized by subspecialty, including breast, gastrointestinal, genitourinary, gynecologic, thoracic, hematopathology, head and neck, soft tissue and bone, dermatopathology, neuropathology, and intraoperative consultations (frozen sections). An elective period is also provided. Participation in research projects by the fellows is encouraged.

Availability

1 opening for July 2024

Deadline

July 21

Length of Program

1 Year

Eligibility

The fellowship is available to individuals who have completed training in pathology in an ACGME-accredited residency program. Board-eligibility in either AP, AP/CP is required by the beginning of the fellowship in Oncologic Pathology.

All qualified applicants are welcome, but preference will be given to those committed to an academic career in Pathology. A definite attempt will be made to identify individuals interested in combining two pathology fellowships offered at Memorial Sloan Kettering under the assumption that this experience should provide them with a strong basis for a successful career in Academic Pathology.

Number of Positions

12

How to Apply

[Apply Online](#)

We are proudly participating in the Unified Approach and Common Timeline for surgical pathology and surgical pathology subspecialty fellowship recruitment. For more information on the Surgical Pathology Unified Approach, visit: <https://apc.memberclicks.net/surgpath-recruitment-page>. This page has the Unified Approach Guidelines for 2025-2026, Code of Conduct, FAQs, and tips for applicants.

Important Dates:

Application deadline: July 21

August 14, 2023: start of interviews for 2025-2026 positions (All interviews will be virtual)

October 2, 2023: First day offers will be made for 2025-2026 positions

For Additional Information

For questions regarding this fellowship please contact our Fellowship Team. Contact information is listed below.

Facilities

Memorial Hospital for Cancer and Allied Diseases is a 425-bed hospital devoted to the care of patients with neoplastic diseases. The hospital is part of the Memorial Sloan- Kettering Cancer Center, which also includes Sloan Kettering Institute for Cancer Research. There is an affiliation and close interaction between the clinical and research units of the Center and the Weill Medical College of Cornell University, as well as with The Rockefeller University.
