The trainees will actively participate in the performance and interpretation of studies, as well as in consultations with clinical staff. Trainees will attend and participate in various clinical conferences. They are also encouraged to participate with the faculty in clinical research projects.

Residents and fellows share on-call responsibilities at Memorial Sloan Kettering Cancer Center.

Conferences

Conferences include daily lectures including didactic nuclear medicine, clinical and basic science lectures, NM seminars, Tuesday radiology noon conference; molecular imaging seminars, case discussions, and journal club.

Faculty

The service has 14 Attending faculty involved in clinical practice, teaching, and research. The ratio of faculty to trainees is >1:1. The faculty participates in clinical case discussion, grand rounds, journal clubs, research, and clinical conferences. The faculty members offer guidance and support for daily clinical work and in research design and analysis. The faculty is highly experienced and the service provides immense exposure to contemporary research.

Deadline

November 15 (for following July start), rolling admissions.

Eligibility

Requirements for this position include completion of one year of ACGME accredited training. US applicants must have a License

to Practice Medicine in New York State before the start of the fellowship. Foreign applicants must obtain ECFMG certification, a clinical visa, and a Limited Permit or a full License to Practice Medicine in New York State prior to the fellowship. MSKCC does sponsor H-1B visas.

Number of Positions

Two

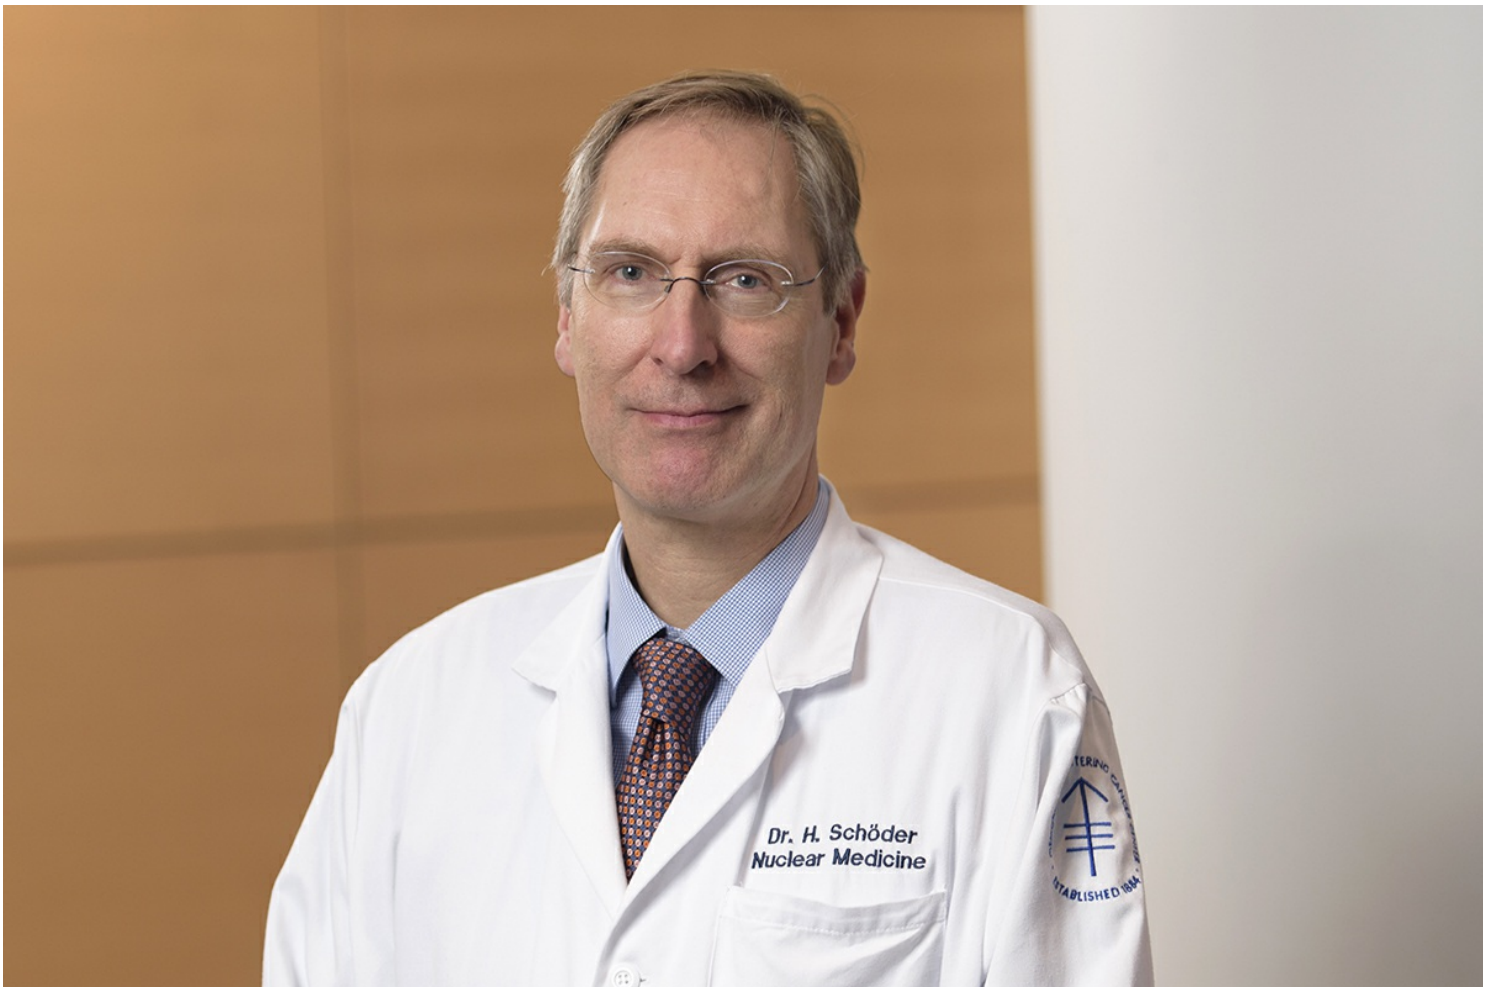

How to Apply

To apply for a residency position, please use the link to our online application portal below. We will then contact you about arranging an interview.
