Source

This cell line was established in 1971 from a metastatic site (supra-orbital region) in a 14-year-old Caucasian female with an Askin's tumor.

Inventors

June L. Biedler, PhD, former Chairman, Cell Biology and Genetics Program, Sloan Kettering Institute, Memorial Sloan Kettering

Lawrence Helson, MD, formerly at Memorial Sloan Kettering

Barbara A. Spengler, formerly at Sloan Kettering Institute, Memorial Sloan Kettering

Licensing Information

This cell line may be licensed nonexclusively for research or commercial purposes.

Express License: For internal research purposes by a for-profit entity: 1) Fill out MSK's ATCC Express License, see [here](#) for links to the online fillable ATCC Express License, as well as a PDF version. 2) After execution by MSK, you will receive a signed copy, and can then place your order with ATCC. For detailed guidance on how to fill out this webform, see [here](#). Please note: In order to streamline and expedite the licensing of select MSK cell lines, the terms of this non-exclusive license are non-negotiable. This license is only available for select cell lines, including this one. Once this license has been executed by MSK, you will receive a signed copy and payment instructions; all payments up to \$10,000 must be made by credit card.

Commercial License: Contact MSK's Tangible Materials team at TRMOTDRTM@mskcc.org.

For non-licensing requests from academic-research institutions: Contact Frances Weis-Garcia, PhD, Associate Laboratory Member/Head, Antibody & Bioresource Core Facility, MSK, [646-888-2354](tel:646-888-2354), weisgarf@mskcc.org.
