Annual report

Give to MSK

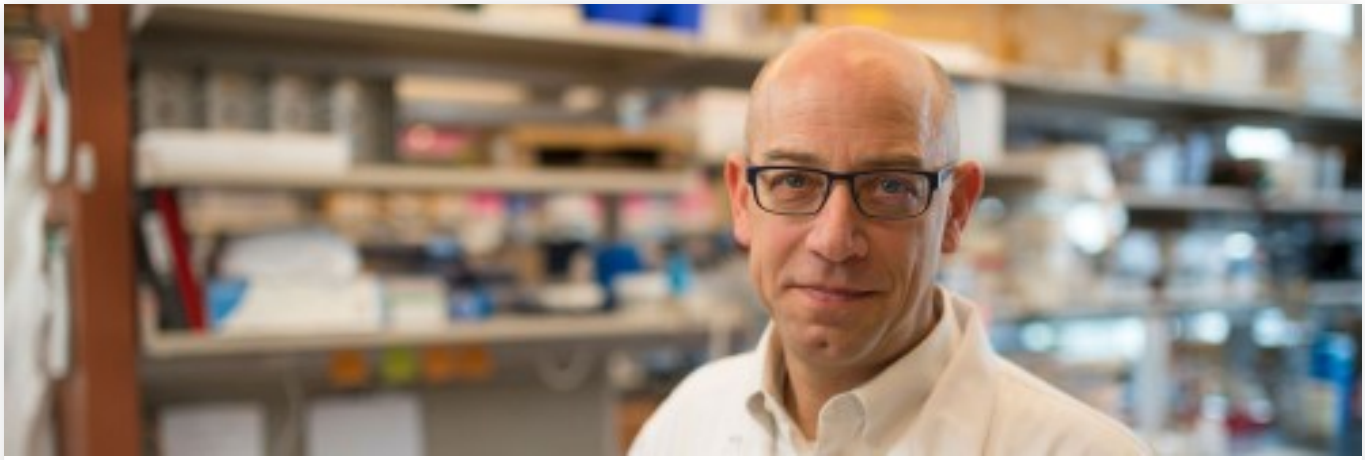

Memorial Sloan Kettering's investigators working in a variety of areas participate in research with scientists from other academic and research institutions. Teaming up with other organizations allows us to make the most of our expertise in cancer research and related topics while gaining valuable insight from researchers who are focused on the same overarching goals — exploring new ways to cure, control, and prevent disease.

Many of these outside collaborations are funded with philanthropic support or government grants.

Learn more about our extramural collaborations.

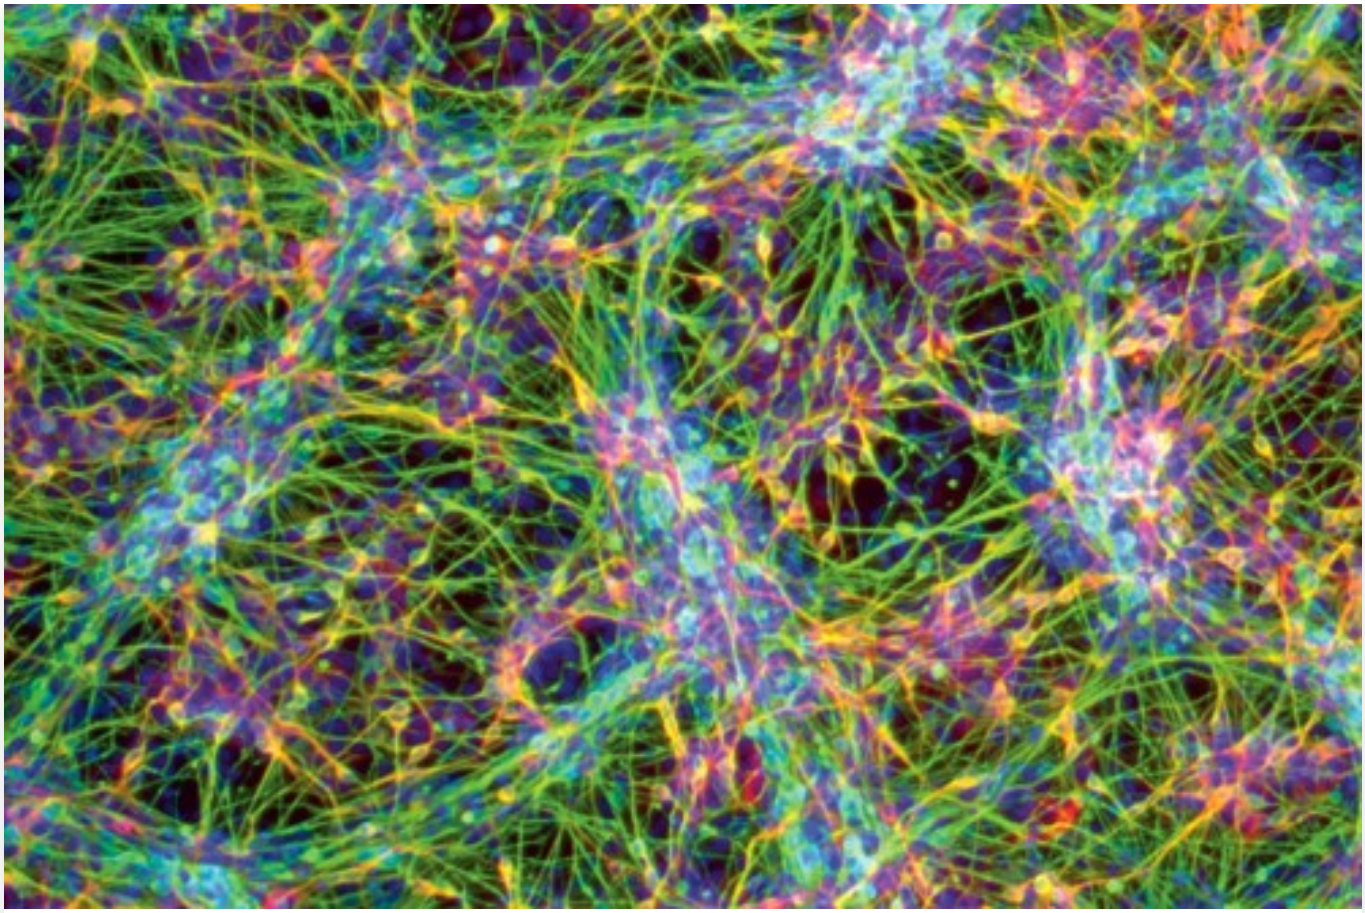

[Memorial Sloan Kettering / City College of New York Partnership]

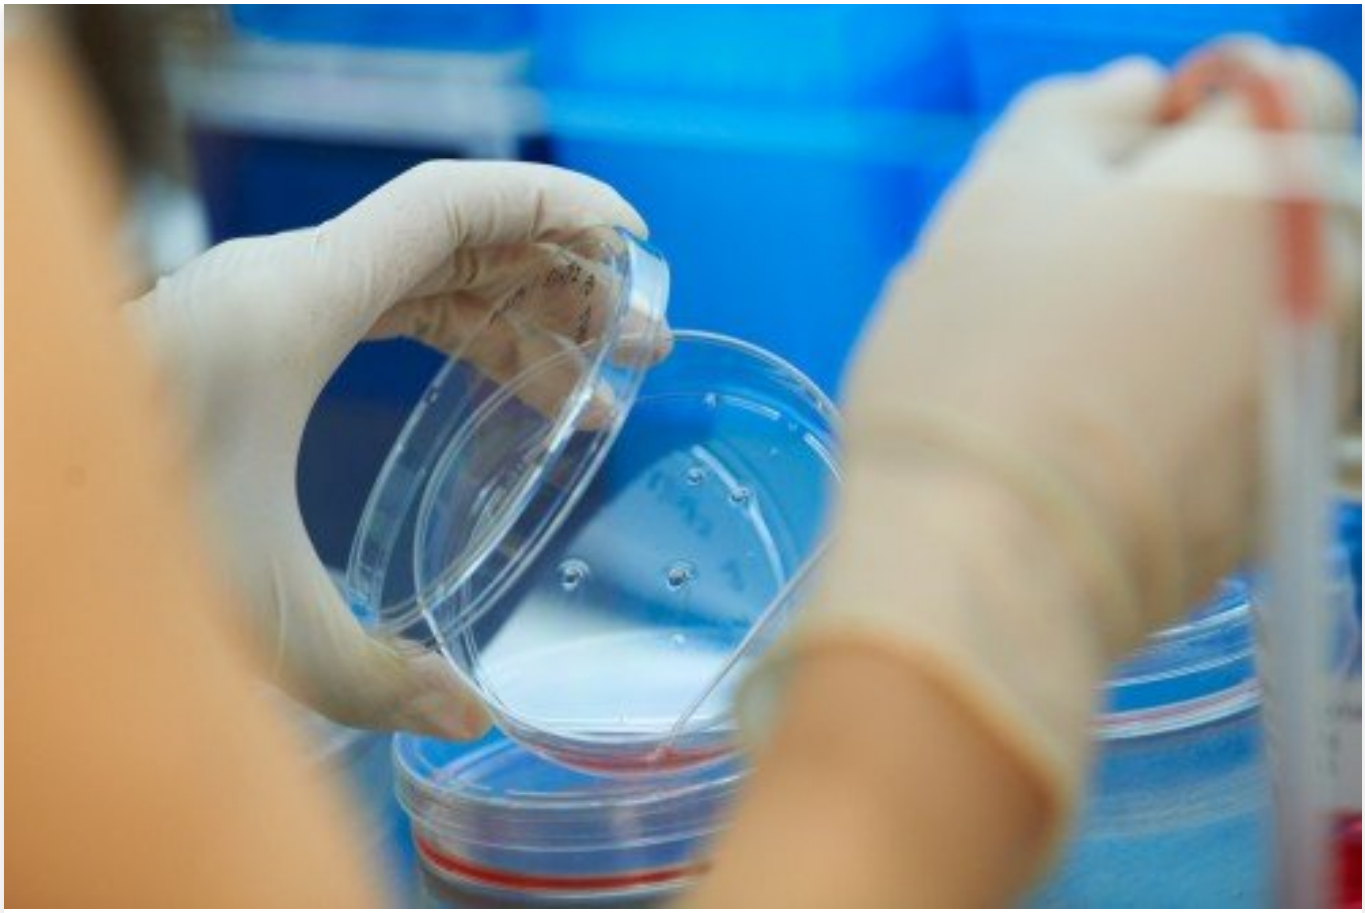

[NCI Small Cell Lung Cancer Consortium]

New York State Stem Cell Science Consortia

Starr Cancer Consortium

[Tri-Institutional Stem Cell Initiative]

Tri-Institutional Therapeutics Discovery Institute

[PROXC - Pediatric Research in Oncology Xenografting Consortium]

[Clinical Trial Direct Data Exchange Program]

[MSK SPORE in Genomic Instability in Breast Cancer]

[Specialized Program of Research Excellence (SPORE) in Lymphoma]
