## Get To Know Me

I am a medical oncologist specializing in the diagnosis, treatment, and management of central nervous system (CNS) tumors, with a focus on low-grade glioma and glioblastoma.

As Chair of the Department of Neurology, I lead a team of experts in neuro-oncology, neurology, clinical neurophysiology, clinical neuropsychology, and rehabilitation medicine. We evaluate and treat people with all types of primary brain tumors (tumors that start in the brain).
