Get to Know Me

I am a board-certified hematologist. My clinical expertise is in treating patients with chronic myeloid leukemia (CML) as well as other myeloproliferative disorders, including myelofibrosis, polycythemia and thrombocytosis as well as less common conditions, such as eosinophilic and mast cell disorders. My patient care philosophy is to offer in-depth explanation regarding diagnoses and to engage in active partnership with my patients and their referring providers to personalize decision-making and monitoring given the chronic nature of the disorders I treat.

What I Do at MSK

I'm a hematologist (HEE-muh-TAH-loh-jist), which is a doctor with special training in blood disorders.

- Attending Physician

Areas of Expertise

Conditions I Treat

- Leukemia
- Blood, bone marrow, and hematologic cancers and conditions
- Chronic myeloid leukemia (CML)
- Myeloproliferative neoplasms (MPN)/Myeloproliferative disorders
- Myelofibrosis
- Polycythemia

- Clinical Trials Co-Investigated by Dr. Mauro
- [A Phase 1 Study of INCA033989 in People With Myeloproliferative Neoplasms](#)

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

[Search clinical trials \(https://www.mskcc.org/cancer-care/clinical-trials\)](https://www.mskcc.org/cancer-care/clinical-trials)

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Michael J. Mauro discloses the following relationships and financial interests:

- Enliven Therapeutics, Inc.
Professional Services and Activities

- Novartis Pharmaceuticals Corporation
Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies

and procedures, email MSK's Compliance Office at ecoi@mskcc.org .
