Get to Know Me

I am an experienced surgeon dedicated to caring for people with [breast cancer](#) . I perform about 330 operations each year, including surgeries to treat breast cancer and benign breast diseases. My goal is to achieve the best possible cancer outcomes and cosmetic results for my patients, including reducing the risk of complications and relapse after surgery.

I perform all types of breast surgery, such as breast conservation ([lumpectomy](#)), [mastectomy](#) , and prophylactic surgery to reduce the risk of breast cancer, as well as procedures to manage cancer that has spread to axillary lymph nodes. I am especially skilled in nipple-sparing mastectomy for people with breast cancer and prophylactic surgery for people at high risk for the disease, such as those who carry certain genetic mutations.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.
