HOW CAN WE HELP?

Appointment type... 

Overview of MSK Skin Cancer Center Hauppauge

MSK Skin Cancer Center Hauppauge provides the same compassionate care patients expect from Memorial Sloan Kettering in a state-of-the-art facility that is convenient for residents of Long Island. Our [skin-care management program](#) includes a team of experts in [melanoma](#), [squamous cell carcinoma](#), [basal cell carcinoma](#), and other types of skin cancer. We also provide treatment for various [head and neck cancers](#).

Dermatologist Ashfaq Marghoob cares for people with skin melanoma at MSK Skin Cancer Center Hauppauge. Here, he performs a dermoscopy, a screening procedure to detect melanoma at its earliest stages.

Daphne Demas is a senior medical photographer whose work helps screen patients for melanoma — and spare them unnecessary skin biopsies.

Services Offered

At MSK Hauppauge, nearby residents have easier access to MSK's outstanding cancer care services, including:

- skin cancer screening via 3-D imaging, dermoscopy, confocal microscopy, and other imaging techniques
- active surveillance program for people with a high risk of skin cancer
- Mohs surgery
- photodynamic therapy
- surgical consults for head and neck cancers

Care Team

At Memorial Sloan Kettering, doctors, nurses, and other specialists work together on treatment teams for each patient. This means that your care team is highly experienced in caring for people with the type of cancer you have. In addition to your medical care, your team will also develop a plan to care for your total well-being, including support for your family and loved ones.

For most cancers, your treatment will be led by one or more primary doctors. These could include a medical oncologist, a surgical oncologist, and a radiation oncologist. Each of these doctors brings a defined set of expertise and techniques for treating cancer.
