## Career Opportunities

[Education & Training](#)

We are always looking for highly motivated, talented, and enthusiastic people with an interest in exploring novel ideas and learning about the molecular basis of how mRNAs regulate protein functions and protein localization in normal and cancer cells. Currently, we have openings for the following positions:

[Open Positions](#)

### Graduate Students

Our lab welcomes interested graduate students from eligible programs (the Gerstner Sloan Kettering Graduate School of Biomedical Sciences and the Weill Cornell Graduate School and related Tri-Institutional graduate programs) to join for rotations.

### Postdoctoral Fellows

Successful candidates should have a recent PhD or MD degree, preferably with a strong background in one or more of the following areas: RNA biology, molecular biology, cell biology, biochemistry, or computational biology. Previous work in the fields of cancer biology, mitochondrial biology, or neurodegenerative diseases is a plus. Postdoctoral fellows are expected to have a strong work ethic, excellent organizational and communication skills, and critical thinking abilities.

The Sloan Kettering Institute offers subsidized housing and a competitive salary for postdocs.
