

MSK & Weill Cornell Medicine Engineering Summer Program (ESP)

A 10-week engineering-focused research experience on the
NYC campuses of Memorial Sloan Kettering Cancer Center and
Weill Cornell Medicine

Applications are invited from engineering undergraduate freshmen, sophomores, and juniors interested in pursuing research at the interface of engineering and biomedicine. Applicants must have an engineering/physical sciences/computational background.

The 10-week program begins on June 7 and ends on August 13, 2021.

Participants will:

- Adapt their engineering skills to address biomedically-focused research questions in cutting-edge laboratories at Memorial Sloan Kettering and Weill Cornell Medicine.
- Interact with faculty, postdoctoral fellows, and graduate students.
- Attend a weekly luncheon seminar series of presentations by faculty.
- Attend professional development workshops.
- Present a poster on their work at the end of the program.
- Receive a stipend of \$6,000 for the summer. Housing available.

We strongly encourage students from groups historically underrepresented in science (disadvantaged, disabled, Black, Hispanic/LatinX, Native American) to apply.

For more information, see a full description of the program at:
mskcc.org/mesp-summer.

Students can complete and submit an online application at: sam.mskcc.org.

Deadline for receipt of applications: February 1, 2021
