Applications are invited from engineering undergraduate freshmen, sophomores, and juniors interested in pursuing research at the interface of engineering and biomedicine. Applicants must have an engineering/physical sciences/computational background.

Participants will:

- Adapt their engineering skills to address biomedically-focused research questions in cutting-edge laboratories at Memorial Sloan Kettering and Weill Cornell Medicine.
- Interact with faculty, postdoctoral fellows, and graduate students.
- Attend a weekly luncheon seminar series of presentations by faculty.
- Attend professional development workshops.
- Present a poster on their work at the end of the program.
- Receive a stipend of $6,000 for the summer. Housing available.

We strongly encourage students from groups historically underrepresented in science (disadvantaged, disabled, Black, Hispanic/LatinX, Native American) to apply.

For more information, see a full description of the program at: [mskcc.org/mesp-summer](mskcc.org/mesp-summer)

Students can complete and submit an online application at: [sam.mskcc.org](sam.mskcc.org)

Deadline for receipt of applications: **February 1, 2023**
