RE: Program #0717

Previous Accreditation Status: 8 Years
Most Recent Site Visit: 02/2021

Dear Ms. Anderson:

After review of the requested interim report, the continuing accreditation status of the certificate radiation therapy program sponsored by Memorial Sloan-Kettering Cancer Center was considered at the March 28, 2025 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiation Therapy (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.

The next site visit is tentatively scheduled for the First Quarter of 2029.

The program is advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any onsite evaluation.

The program is commended on the quality and organization of its interim report. The Joint Review Committee on Education in Radiologic Technology Directors and staff congratulate you and the program faculty for maintaining the maximum award of accreditation from the JRCERT and wish you continued success in your efforts to provide a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

Mahsa Dehghanpour, Ed.D., CMD
Chair

MD/JEM/jm

The JRCERT promotes excellence in education through the application of professional standards that endorse academic integrity and quality, as well as exemplary healthcare, through the accreditation of educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry.
