

Reviewers provide an overall score to reflect their assessment of the likelihood that the Fellow completes the proposed study. An application does not need to be strong in all categories to be judged likely to have major impact. For final score, add final score column and divide by 6.

Overall Impact	Pre-Score	Strength	Weakness	Final Score
Briefly summarize the significant strengths and weaknesses of the application and the likelihood that the Fellow completes the proposed study.				

Criteria DESCRIPTION	Strength	Weaknesses	Pre-SCORE	Final Score
Study Purpose: <ul style="list-style-type: none"> Does the application describe the purpose of the proposed study? Research questions/ aims/objectives? Does the study address a problem in oncology nursing care for people with cancer at MSKCC? 				
Significance: (Background) <ul style="list-style-type: none"> What does the study contribute to scientific nursing knowledge, technical capability, and/or clinical practice? Contribution to the Nursing Department Goals at MSKCC? 				
Innovation <ul style="list-style-type: none"> Does the application describe how study will challenge and/or shift current research or clinical practice paradigms through novel approaches or methodologies, instrumentation, or interventions? 				
Methods Approach <ul style="list-style-type: none"> Will the MSKCC Nursing Research Fellowship build on prior training, past accomplishments and future directions of the Fellow? Was research setting described? Is the study design described? Is the study sample described? Described data collection plan? Data analysis Plan: <ul style="list-style-type: none"> Was analysis described? 				
Investigator(s) <ul style="list-style-type: none"> Does the Fellow provide evidence of being able to complete the study in the area of interest in the 1-year timeframe? Does the application address a critical area of research? 				
Environment <ul style="list-style-type: none"> Will the scientific and clinical environment contribute to the probability of success? Are institutional support, equipment and other physical resources available and adequate for the fellowship? Is the timeline realistic?
