# MSK Pavilion Project Air Purifier Unit Reimbursement Program

## What is the Program?

In conjunction with the Memorial Sloan Kettering Cancer Center (MSK) Pavilion construction project at 1233 York Avenue, MSK is offering to reimburse residents of apartments within 200 feet of the jobsite for the purchase of one air purifier device. The NYC Department of Buildings often uses a 100-foot radius to designate which buildings are potentially affected by a construction project or other condition. MSK has opted to double this radius to 200 feet for its Air Purifier Reimbursement Program.
