BREAST CANCER *and* BONE HEALTH

A 2014 collaborative program presented by Hospital for Special
Surgery and Memorial Sloan Kettering Cancer Center

Thursday, November 6 ■ 5:00-6:30pm

Hospital for Special Surgery, Richard L. Menschel Education Center (2nd floor)
535 East 70th Street, New York City

Women who have had breast cancer treatment may be at increased risk for
osteoporosis and fracture.

This lecture will discuss:

- How breast cancer affects bone health
- Ways to prevent osteoporosis and slow down loss of bone mass

Speakers:

Dr. Azeez Farooki
Memorial Sloan Kettering Cancer Center
Dr. Linda A. Russell
Hospital for Special Surgery
