TARGET AUDIENCE
This course is directed towards dermatologists.

COURSE OVERVIEW
The goal of this conference is to present and discuss the most current information on the use of dermoscopy in helping clinicians classify skin lesions as benign or malignant.

The educational objectives of this activity are to communicate present understanding of the use of dermoscopy. Participants will learn to recognize dermoscopic structures, their histologic correlates, and dermoscopic criteria that are essential in helping clinicians classify skin lesions as benign or malignant.
