The diagram consists of four rows of empty rectangular boxes. The first row contains 10 boxes. The second row contains 9 boxes. The third row contains 8 boxes. The fourth row contains 10 boxes. There are two short horizontal lines with a dash above the first row, and a short horizontal line with a dash above the fourth row.

A large grid of empty rectangular boxes, likely a crossword puzzle grid. The grid is composed of approximately 100 boxes arranged in a rectangular pattern, with some boxes being larger than others to accommodate words.

A horizontal row of 20 empty rectangular boxes, intended for handwritten responses. The boxes are evenly spaced and aligned horizontally.

A decorative border consisting of a repeating pattern of small, empty rectangular boxes arranged in a grid-like fashion. The border is composed of approximately 30-40 boxes in width and 10-15 boxes in height, creating a decorative frame for the page.

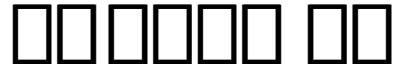

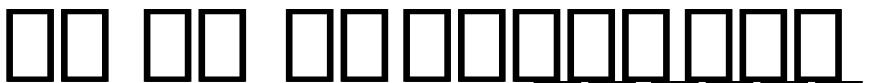

(□□□□□□□□□□) Anticoagulants

A decorative border consisting of a repeating pattern of small, empty rectangular boxes arranged in a grid-like fashion. The border is composed of three rows of these boxes, creating a decorative frame for the page.

(PACU) PACU

A row of 10 empty rectangular boxes for writing numbers 1-10.

A sequence of five empty rectangular boxes arranged in two rows: two boxes in the top row and three boxes in the bottom row, with a colon at the start.

A horizontal sequence of 20 empty square boxes for drawing, followed by a small black dot.

A horizontal row of ten empty square boxes, intended for children to draw or color in.

-  

A horizontal sequence of 24 empty rectangular boxes arranged in a grid pattern. The boxes are organized into three distinct groups by vertical dashed lines: a group of 8 boxes on the left, a group of 8 boxes in the middle, and a group of 8 boxes on the right.

The diagram illustrates a 2D convolutional layer. It shows an input layer with 16 channels, a convolutional layer with 16 channels, and an output layer with 16 channels. The convolutional layer uses a 3x3 kernel and a stride of 2. The input layer has a width of 8 and a height of 8. The output layer has a width of 4 and a height of 4. The diagram uses small squares to represent individual pixels or channels.

Diagram illustrating a sequence of empty rectangles. The sequence starts with 12 empty rectangles, followed by 4 empty rectangles, then 4 empty rectangles, then 2 empty rectangles, then 2 empty rectangles, and finally a single black dot.

A horizontal sequence of 20 empty rectangular boxes, divided into two groups by a vertical line. The first group contains 10 boxes, and the second group contains 10 boxes. This visual representation is used to show the division of a total quantity into two equal parts.

Diagram illustrating a sequence of 12 boxes, divided into two rows of 6 boxes each. The first row contains 6 empty boxes. The second row contains 6 boxes, with the last box in the row filled. To the right of the second row, the label "cyc" is written.

A diagram showing a 3x10 grid of rectangles. The first row has 10 rectangles of height 1. The second row has 10 rectangles of height 2, with the 5th rectangle being taller than the others. The third row has 10 rectangles of height 3, with the 5th rectangle being taller than the others. The rectangles are outlined in black.

- 

.....

10 boxes - 10 boxes = 1 box

A sequence of 18 empty square boxes followed by a sequence of 10 empty square boxes, with a decimal point and the number 2 to the right.

A horizontal row of 12 empty rectangular boxes, each with a black border, intended for children to write their names in.

*Showering While You Have a Central Venous Catheter* (CVC) ([www.mskcc.org/cancer-care/patient-education/video/showering-while-you-have-central-venous-catheter](http://www.mskcc.org/cancer-care/patient-education/video/showering-while-you-have-central-venous-catheter))

A horizontal row of 20 empty rectangular boxes for handwriting practice. In the center of the row, the letters 'cvc' are written in a bold, black, sans-serif font. The boxes are evenly spaced and extend across the width of the word 'cvc'.

— 1 —

A 3x10 grid of 30 empty square boxes for writing answers. The grid is composed of three rows of ten boxes each. The boxes are arranged in a single horizontal row.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m.

Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000
